

## KAW VALLEY ENGINEERING

### FOR IMMEDIATE RELEASE:

**June 16, 2010**

#### **Robert M. Halastik II Attains Professional Engineer Designation**

##### **Lenexa, Kansas**

Kaw Valley Engineering, Inc. (KVE), provider of consulting civil and geotechnical engineering services, is proud to announce that Robert “Rob” Halastik II has successfully completed the requirements to earn his Professional Engineer (P.E.) designation. Rob is a member of the Geotechnical Engineering department in KVE’s Lenexa, Kansas office.

Rob started his KVE career as a summer Lab Intern while he was a civil engineering student at Kansas University. Rob graduated from Kansas University with a degree in Civil Engineering in May 2005. He joined KVE as a full-time employee in June 2005.

Rob is certified as a Kansas Department of Transportation (KDOT) Inspector. He is also certified as a Field Testing Technician I by the American Concrete Institute (ACI). Rob is responsible for reviewing and updating the results of subsurface explorations and engineering studies for various design sections – including soil and rock evaluation, groundwater conditions, and geotechnical recommendations for design and construction. Rob has provided construction observation services for over 50 projects including fill placement, retaining wall construction, and foundation construction.

#### **About Kaw Valley Engineering:**

KVE is a full-service civil engineering firm, providing civil engineering, geotechnical, environmental, surveying, steel inspection, welding inspection, construction inspection and materials testing services throughout the Midwest. KVE has offices in Junction City, Kansas; Lenexa, Kansas; Salina, Kansas; and Kansas City, Missouri. Kaw Valley Engineering – Designing the ground where we live, work and play since 1982.
